

# SOLUTIONS FOR SHOPFITTING AND DESIGN RELIABLE, SUSTAINABLE AND INDIVIDUAL

**TENTE**

BETTER MOBILITY. BETTER LIFE.

# RELIABILITY FOR THE MARKETS

In wholesale and retail, our products are regarded as reliable mobility solutions that unconditionally meet the specific requirements of the industry. From stainless, lightweight and quiet plastic castors for shopping trolleys, to safe solutions for product displays, to stable castors for transport equipment and platforms in DIY stores; with our designs, you are perfectly equipped for your business. They ensure particularly comfortable manoeuvrability and quiet running. Additionally, they also increase safety and protect the floors. They not only optimize mobility at the point of sale, but also improve the shopping experience of your customers.

## **CASTORS FOR MOVING WALKWAYS**

Shopping trolleys should stand safely on moving walks. We offer you solutions with integrated brake shoe or lateral tracking wheel that guarantee maximum reliability. At the same time, the moving walkway castor are characterised by efficient self-cleaning of the tracks and can be easily replaced.

## **SAFETY, PEACE OF MIND AND DRIVING COMFORT**

When supermarkets receive deliveries in the early hours of the morning, the transport trolleys must not disturb the peace. Our noise-reducing castors keep noise pollution to a minimum. For use in your store, you can get solutions with non-marking running surfaces for sensitive floors. Conductive designs protect users from electrostatic charging, while our products with high-quality swivel bearings ensure easy steering.

On the following pages you will find more information about our mobility solutions for shopfitting and design. Please do not hesitate to contact us for further technical details or a personal conversation.

# EFFICIENCY AND PRODUCTIVITY WITH ALPHA

📦 135 - 500 kg    🛞 202 - 245 mm    🌀 160 - 200 mm

The Alpha castor with specific soft wheel options offers quiet running for a smooth working environment. The robust and reliable steel castor with total and directional lock and central wheel lock prevents the trolley from rolling away and increases supply chain efficiency.

## Vibration and quiet transport

Extra soft wheels with good damping properties guarantee low-vibration and low-noise transport of food.

## Efficient supply chain

Which, by means of an additional central locking device, can lock the application with one kick.

## Hygienic castor

The thread guard ensures minimal cleaning and maintenance requirements. The robust construction protects against spray water and dirt. Metal components are also available in stainless steel.

## Wear resistant wheels

Due to non-marking elastic wheels, the Alpha is extremely wear-resistant.

*"Our close cooperation with TENTE has considerably improved the level of innovation of CHEP mobile display platform. Our customers benefit from a simple, efficient solution that reduces disposition costs as well as significantly increases security and turnover at the Point of Sale - especially in convenient stores with limited space."*

**Daniel Lopez Uran, Product Management and Innovation Director at CHEP Europe**

# DESIGN AND TRAVEL COMFORT WITH LEVINA

 **60 - 100 kg**     **103 - 194 mm**     **75 - 150 mm**

Quiet and comfortable - thanks to its plastic housing and soft, cushioning tread, the Levina castor offers perfect manoeuvrability of the shopping trolley, as well as safe and quiet movement, offering the best shopping experience for the customer.

# SUSTAINABILITY WITH STORA

📦 55 - 160 kg    🚲 100 - 191 mm    🌀 75 - 160 mm

A single shopping trolley covers thousands of kilometres in the ten years of its life. During this time, the trolley's castors are subject to heavy wear and tear. In order to save valuable resources and protect the environment, we provide castors where only those parts are replaced when it is really necessary.

*„With TENTE, we save two thirds of the costs and protect the environment.“*

Hans-Peter Vetvicka, General Manager of ShopBox Group GmbH
