Monitoring and follow up TENTE encourages suppliers to implement and maintain management systems and standards and to appoint responsible company representatives who shall ensure compliance with the applicable laws and regulations, the supplier's contract with TENTE and this Supplier Code of Conduct.

TENTE expects the supplier's co-operation in verifying compliance, e.g., by completing self-assessments and reports and granting TENTE (or a third party selected by TENTE) access to relevant premises and information to conduct on-site audits, including interviewing relevant supplier personnel and access to accurate and complete documentation and records.

The supplier shall remedy any non-conformity identified without delay. Failure to comply with this Code may have negative consequences.
